PLAN TO PLACE CURB ON KAISER

Assembling of German Federal Council Stirs Up Much Speculation.

BUNDESRATH MAY PROPOSE ACTION

Meeting, Which is Unusual, Called at Instance of Bavaria.

Berlin, Nov. 12.—The meeting which is to take place in Berlin before the foreign affairs committee of the bundesrath, or federal council, is attracting much interesting speculation. The circumstances preceding the assembling of this committee, a most unusual step, have given rise to the inference that the meeting is called to take some action with the idea of preventing Emperor William from pursuing an independent course in the foreign affairs of the empire, as well as from publicly indicating a personal policy differing from that of his government.

The ministers president of the Bavarian, Wuertemberg and Saxon delegations to the council—the bundesrath represents the individual states of the empire as the reichstag represents the German nation—arrived in Berlin for the committee meeting a few days ago. The assembling of the committee has come to be an almost forgotten feature of the constitutional institutions of the German empire, and it is for this reason that so much speculation attaches to the extraordinary proceedings. It is understood that the meeting is called at the instance of Bavaria, whose minister president, Baron Von Podewits, will therefore preside at the sittings. According to newspaper statements, Luithpold, the prince regent of Bavaria, is intensely exasperated because of Emperor William's venture into foreign policies, or in other words, the publication of the London Telegraph interviews, an act which has resulted in a degree of criticism of his majesty for the past two days in the reichstag never before equalled. No official statement as to the purposes of the meeting can be had, and great secrecy is being observed regarding the entire matter.

Dr. Barth Defines Situation.

Dr. Theodore Barth, for many years the leader of the advanced wing of the radical party in the reichstag, has written to the Associated Press the following definition of the political situation today in Germany:

"The debates in the reichstag directed against the personal government of the empire will have the effect only of a sham fight with parliamentary blank cartridges until it is understood that in Prussia and Germany personal government does not depend upon temperament and character of the present emperor, but represents the deep rooted and old Prussian governmental system which Bismarck transferred to the German empire. Personal government can only be abolished by a determined advance toward a system of parliament government, similar to that existing in

POWDER MILL LETS GO AND WRECKS A TRAIN

Terrific Explosion in Dodson, Mo., Causes Death of One Person.

Kansas City, Mo., Nov. 12.—A terrific explosion in the glazing house of the Excelsior Springs Powder company at Dodson, ten miles south of Kansas City, today, caused considerable property damage and resulted in the death of one man and the injury of thirty-five others. With the exception of one person, none of the injured persons was seriously hurt.

The dead:

HERMAN KLINE, engineer in glazing house.

Seriously hurt:

Mrs. J. B. McDonough, Fort Scott Kas., wife of Kansas City Southern solicitor; injured internally.

A Kansas City Southern passenger train, inbound for Kansas City, was standing on the tracks two blocks distant from the powder works when the explosion occurred. The windows of the coaches were blown in and it was in this manner that so many persons were hurt. The train remained upright and later carried the injured to Kansas City.

Engineer Kline was the only person in the glazing house at the time of the explosion and as he was instantly killed no one can say just how the explosion occurred.

CHINA'S EMPEROR SICK UNTO DEATH

Western Medical Attendance for Ruler is Declined.

RUMOR IN PEKIN THAT HE IS DEAD

Emperor Has Been Chronic Invalid for the Past Ten Years.

Pekin, Nov. 12.—It is the concensus of opinion in Pekin that the emperor of China is very ill and today he is reported as still sinking. He will not accept western medical attendance.

The condition of the emperor is so serious that the various legations here are sending cabled reports thereon to their respective governments.

There have been circumstantial rumors among the people of the death of the emperor and his little brother, the infant son of Prince Chun, has been brought into the palace.

The emperor has been suffering for ten years past from chronic nephritis, a condition now complicated with diabetes and sciatia. It is admitted that his brain is affected.

The legations stand ready to lend their physicians to attend his majesty, but in August of this year the dowager empress declined offers to this end made by the British and German legations and consequently no further proffers have been made.

The past few days audiences between the emperor and members of the grand council, there is reason to believe, have been audiences in name only.

LOCAL SHIPPERS MAY LOSE.

Northern Indiana Stockmen Consigned to Buffalo Firm.

Judge W. J. Vesey arrived in the city Wednesday afternoon from Buffalo, where he had been representing local claims against the stock-dealing firm of Christian F. Pfeiffer & Sons, which is alleged to have been wrecked by Stephen Pfeiffer, now said to be a fugitive from justice.

Judge Vesey says that while the Fort Wayne banks are amply secured in their loans, a number of Northern Indiana stock dealers who had consigned live stock to the firm for which no return was made will in all probability lose the greater portion of their accounts. It is now estimated that the liabilities of the firm will reach $90,000, with assets of about $60,000. It is understood that four shippers have filed affidavits against the young man who is yet in hiding.

ON TRIAL FOR DESERTION.

Husband of Senator Gorman's Daughter Faces Court-Martial.

Philadelphia, Nov. 12.—Charged with desertion from the United States navy, Charles J. Magness, husband of Ada Gorman, daughter of the late United States Senator Gorman, of Maryland, was placed on trial today before a court-martial tribunal at the Philadelphia navy yard.

Following the alleged desertion Magness married Miss Gorman. He was arrested, however, at the instance of the government and brought back to this city. Since his imprisonment at the navy yard, Magness has been visited several times by his wife.

REAL SON OF REVOLUTION.

Crown Point, Ind., Man's Father Fought for Independence.

Indianapolis, Nov. 12.—The register for 1908 of the Indiana Society of the Sons of the American revolution, compiled by Charles W. Moores, has just been issued. The book contains the roll of members and their revolutionary ancestors, and other interesting information. The roll of former members is headed by the name of Schuyler Colfax, once vice president of the United States.

Among the photographs in the volume is one of Wellington Alexander Clark, of Crown Point, Ind., the last surviving son in this state, whose father fought in the revolutionary war.

SURNS MONEY; ENDS LIFE.

Helena, Mont., Nov. 12.—Albert Berger, a former Alaska miner, just before committing suicide at Canyon Ferry Tuesday night, threw $2,900 in post office money orders, payable to himself, in the stove, declaring that the money was in the hands of the government and no one would quarrel over it, after he was dead.

THIRD ARREST IN CARMACK KILLING

Ex-Sheriff Sharpe, of Nashville, in Custody as Accessory

WITH COOPERS BEFORE TRAGEDY

Grand Jury Begins Taking Testimony in Political Murder.

Nashville, Tenn., Nov. 12.—John D. Sharpe, former sheriff of this county, was arrested here today charged with murder and aiding and abetting in the murder of Senator E. W. Carmack last Monday afternoon. It has been understood here for two days that warrants would be issued for the arrest of Sharpe and his arrest today was no surprise. It is alleged that Sharpe was seen with the two Coopers shortly before the killing and was also at the scene of the tragedy immediately after Carmack fell to the ground. Sharpe was at once taken to jail.

Witnesses were called before the grand jury today to testify concerning the killing of ex-Senator Carmack by Robin Cooper.

While the tragedy is one to which there should ordinarily be few details, the fact that no eye witnes has been discovered who saw the first shot fired, makes it a case in which circumstances will largely enter as it now stands.

Dr. Duncan Eve, who is attending Robin Cooper, stated that the young man is not yet out of danger. He was very much powder burned about the face, neck and ears, showing that the shooting was at close range.

INDIANA TOWN WIPED OUT.

Winslow, Ind., Nov. 12.—Fire here today practically wiped out the town of Spurgeon, two miles south of here, near the Pike county line. The loss, estimated at $22,000, embraces nearly every business house in the town. A stiff wind aided in the destruction and the town people were powerless to cope with the flames, having nothing but buckets to work with.

IS CLERKING IN A HOTEL.

Long Lost Son of Austrian Privy Councillor is Found.

Los Angeles, Cal., Nov. 12.—The long lost son of Dr. Josef Lowey, privy councillor to Emperor Franz Joseph, of Austria, has been found through the enterprise of Otto E. Schroeder, clerk at the Hotel Lankensheim, this city. For more than a year past the son of Dr. Lowey has been living in Oakland under the name of Fred Anderson, and an advertisement, which Schroeder placed in the San Francisco papers, caught his eye and brought immediate response.

Lowey left home more than six years ago. He was then a boy of adventuresome disposition and could not brook the restraint of home life and ran away. For some time he lived in London then came to America and drifted to California. Here all trace of him was lost.

TRACTION RECEIVERS NAMED.

Cleveland, O., Nov. 12.—Judge Taylor, of the federal court, today named Warren Bicknell and Frank A. Scott as receivers for the Municipal Traction company.

TWO UNDER ARREST FOR RAIL WRECK IN SOUTH

Engineer and Conductor in Trouble—Lake Shore Flyer Ditched.

New Orleans, La., Nov. 12.—As a result of the collision which yesterday cost eight lives and the serious wounding of a score of persons at Little Woods station on the New Orleans and Northeastern railroad, two men have already been arrested and thorough investigation is being made into the wreck, as well as the delay in sending a relief train from New Orleans.

Those arrested are Wayne A. Blackburn and A. B. Keys, engineer and conductor, respectively, of the Great Northern express, which telescoped the Northeastern local. They were released during the night under $10,000 bail. It was not known until late last night exactly how many persons had been killed or the extent of the other injuries and even today there was doubt as to whether all of the bodies had been found. An investigation completed this morning appears to bear out the statement of railroad officials last night, that eight were killed and twenty-three injured.

LAKE SHORE FLYER WRECKED.

Rochester, N. Y., Nov. 12.—Three Pullman coaches of the eastbound Twentieth Century Limited left the tracks and turned on their sides east of this city early today. A broken rail was the cause of the accident.

The train stopped at Rochester as usual for its two minutes' stop, then started again and had got two miles out of the city, going at a twenty-five mile clip, when it hit the broken rail, derailing three cars.

Despite the fact that the cars completely left the track, none of the many passengers on board seems to have been seriously hurt.

About eighty through passengers from Chicago to New York were on the train.

HUNDRED PASSENGERS HURT.

Butler, Pa., Nov. 12.—Passenger train No. 11, southbound on the Bessemer and Lake Erie railroad, running forty miles an hour, was wrecked near here last night. More than one hundred passengers escaped with slight injuries.

The tender jumped the track in a deep cut and two baggage cars and two coaches were hurled against the bank, turning half way over on their sides.

George Mitchell, a Pittsburg traveling man, forced open a door of one coach with a timber, releasing forty passengers. Many climbed out of windows. One car caught fire, but the blaze was quickly extinguished.

FITTING UP RETAIL STORE.

Charles H. Phelps, the newsdealer, has leased the southwest corner of the Arcade, opposite his news stand, and it is being fitted up for the exclusive retail business now being carried on by him. Souvenir card racks, book shelves and stands and receptacles for other articles handled in the retail business are being installed and the room will be opened to business early next week. Mr. Phelps will retain his old quarters for the wholesale branch of his business.

FAILED TO FIND BELLA GUNNESS

Laporte Sheriff Asks Lamphere Attorney for Her Address.

STILL TRYING TO SECURE THE JURY

Former Farm Hand Tells His Suspicions of Some More Bodies.

Laporte, Ind., Nov. 12.—Examination of veniremen on the fourth special panel of twenty-three was commenced today by Prosecutor Smith in the trial of Ray Lamphere for the murder of Mrs. Belle Gunness.

Ten jurors have already been tentatively accepted by both sides.

Sheriff Smutzer today turned into court Attorney Worden's subpoena for "Mrs. Belle Gunness," with the statement that Mr. Worden had failed to furnish the address of the woman and that she was not to be found in this country. Mr. Worden declared that he needed her as a witness to help clear Lamphere.

Dr. Walter Hains, of Chicago, it was announced today, will testify to the finding of poison in the stomachs of Mrs. Gunness and two of the children, and the defense will use him to disprove the state's contention that the inmates of the Gunness house died from suffocation and burns.

"Dr. Hains' testimony," said Attorney Worden today, "will support either the theory that Mrs. Gunness poisoned her children and then committed suicide, after setting fire to the house, or that she poisoned the children, left a cadaver, set fire to the house and then ran away. Either theory will knock out the claim of the state that Lamphere fired the house."

Of the ten jurors tentatively accepted, two, Arba Kimball and W. G. Kyle, were excused, leaving four vacancies to be filled from the fourth special venire.

Clew to More Bodies.

John Zach told Judge Richter today that in April, 1907, Mrs. Gunness engaged him to move a pig stye, but before the final location was found, it was necessary for him to move it three times under her direction. He says she was very particulair about the matter for she wanted it to cover a certain spot. Zach now believes that there are bodies underneath the structure.

The questions asked the venirmen today by Attorney Worden, for the defense, were changed somewhat from what they had been, indicating the adoption of the poison theory, in line with the testimony of Dr. Hines, who will be a witness for the defense.

William E. Crichton, who had been accepted by both sides, was peremptorily challenged by the defense and excused, leaving but seven of the original ten.

NO INDICTMENT FOUND.

Strange Discovery After Man Had Pleaded Not Guilty to Murder.

Anderson, Ind., Nov. 12.—Search of the files at the county clerk's office has failed to reveal the indictment for murder returned by the grand jury against John Glasco, who was arraigned in the circuit court yesterday and pleaded not guilty to the charge. Prosecutor Van Nuys has a carbon copy of the indictment, but does not wish to go into the trial without the original indictment. It is probable that the grand jury will be reconvened and a new indictment returned against Glasco for murder in the first degree.

THREE HUNDRED PERISH IN MINE

Terrific Explosion in Colliery at Hamm, Westphalia, Germany.

FIRE DRIVES OUT A RESCUE PARTY

Of Four Hundred Men in the Mine Three-Fourths are Believed Doomed.

Hamm, Westphalia, Germany, Nov. 12.—There was an explosion of fire damp in the Radbod mine this morning which probably will result in very heavy loss of life.

Already twenty-seven bodies have been brought to the surface and 300 men are still under ground in grave peril.

Four hundred men were working in the pit at the time of the explosion. About seventy of them have been brought to the surface. Of these a majority are more or less injured and one has since died. One hundred and fifty men are in shaft No. 2 and it is believed that they are all doomed.

Rescuers arrived from all directions and the work of getting below was at once organized. These efforts, however, were necessarily slow and attended with extreme difficulty.

Fire Drives Rescuers Back.

One of the shafts, together with its elevator cage, has been completely burned out. An improvised cage was sent down with a corps of rescuers, who made heroic efforts to reach their comrades.

At 1 o'clock the fire had made such headway that the rescuers had to be called back to give way to the fire fighters and the flames are still spreading.

The vicinity of the district is surrounded by the police, and the public is not permitted to approach. Despairing scenes are being witnessed among the crowds of relatives who have gathered outside the police cordon.

Three Hundred Dead.

A total of thirty-five bodies had been brought to the surface up to 4 o'clock this afternoon. Eighteen of the men who got out alive are severely injured. No hope is entertained for the three hundred men still below ground.

The violence of the explosion caused the walls of the galleries to fall in.

A salvage corps, armed with apparatus to supply each man with oxygen is now endeavoring to penetrate the mine. These are the same men who went over to Courrieres, France, in March of 1906, and rendered such valuable aid in the frightful mine disaster there.

BANKERS TO COME TO FORT WAYNE NEXT YEAR

This Cit yis Chosen for the State Convention in 1909.

Indianapolis, Nov. 12.—Fort Wayne will entertain the next annual convention of the Indiana Bankers' association. The selection of the place of meeting was made this morning and Fort Wayne won handily over all other aspirants. The Fort Wayne delegation to the present convention came to Indianapolis wearing badges inscribed, "Fort Wayne in 1909," and from the first waged a determined fight to secure the next state gathering.

Business sessions of the convention came to a close this morning and the banquet this evening will complete the most successful convention the organization has ever held.

Bedford Man President.

J. R. Voris, of Bedford, was selected president for the coming year and the out-going president, H. C. Johnson, of Seymour, was decorated with a badge.

During the morning discussions of unusual interest were heard. George E. Allen, of New York, of the American Institute of Banking, speaking on "Politics and Banking," and George E. Roberts, of Chicago, president of the Commercial National bank, outlining and advocating a plan for a central bank of issue.

SCALDED ABOUT FACE.

Mrs. Herman Woehnker, of Ewing Street, Has Painful Mishap.

Mrs. Herman Woehnker, of 1238 Ewing street, was the victim of an unusual mishap in which she was painfully scalded about the hands and face. Mrs. Woehnker poured some gasoline into a vessel of boiling water, and in some unexplainable manner the chemical action splashed the scalding water over her.

HANLY MAKES OUT THE COMMISSIONS

Declines to Delay Canvass of State Vote to Hunt for More Errors.

ACTS UPON FACE OF THE RETURNS

Will Honor Mr. Marshall With Specially Prepared Commission.

Indianapolis, Nov. 12.—The formal canvass of the vote for state offices was taken up this morning by the secretary of state and the governor, at the latter's offices, but it did not last long. Only two minor changes were made. One change in the returns from Lawrence county gave Billhelmer, republican candidate for state auditor, an additional eight votes and a change made in the returns from Shelby county, gave Thomas R. Marshall, governor-elect, an additional 100 votes. This raised Marshall's plurality to 14,909.

Following the canvass of the vote, Governor Hanly signed commissions for all of the state officers except Judge Quincy A. Myers, who was elected judge of the supreme court, and Frank Hall, lieutenant governor elect, and Thomas R. Marshall, governor-elect. It was announced that the other commissions except that for the governor-elect would be signed before the close of the day.

Special Commission for Marshall.

A special commission is being prepared for Governor-Elect Marshall.

A number of communications from election officers citing errors in different counties were in hand when the canvass of the vote was begun, but according to the governor's interpretation of the election law, the two changes were the only ones which could be taken up legally. The governor's interpretation of the law in this particular was indorsed, it is said, by Congressman Lincoln Dixon, who was present representing the democratic candidates and by Judge Joseph Shea, of Seymour, also a democrat, but the democrats desired delay for further changes of the kind.

Hot Speakership Fight.

The contest for the speakership of the next house of representatives is waxing warm, in fact, it seems that some of the speakership candidates are making fully as spirited a race as are the candidates for United States senator. W. H. Vollmer, democratic county chairman at Vincennes, who, it is said, would like to see Representative James Garrard, of Vincennes, the next speaker of the house, was in Indianapolis today attending the bankers' meeting and incidentally was looking into the speakership situation.

Judge Joseph Shea, of Seymour, was mingling with his democratic friends in the city and it is said that he has visions of Tom Honan, of Seymour, as the next presiding officer of the house.

The Senatorial Fight.

None of the democratic candidates for United States senator has opened headquarters in this city, but it is expected that all will do so within a short time.

John W. Kern has his law office in the State Life building and from there he probably will conduct his campaign.

B. F. Shively, of South Bend, said today that he would have a personal representative in this city in a short time to look after his candidacy while he was out in the state. He did not say who his representative would be.

John W. Boehne, mayor of Evansville, and congressman-elect from the First district, was in town today. It has been the general understanding that when Major G. V. Menzies, of Mount Vernon, opens his senatorial

ARE NOT CONVINCED BODY FOUND IS ANDREE'S

Arctic Experts in Stockholm Skeptical as to Labrador Remains.

Stockholm, Nov. 12.—Not all arctic experts here believe the report that the grave of Prof. S. A. Andree, the Swedish explorer, who in 1897, made an attempt to reach the north pole in a balloon, has been found on the coast of Labrador. Prof. Nanthorst today said they did not think it possible that Andree's balloon could have reached Labrador.

FINDING OF THE BODY.

Copenhagen, Nov. 12.—There is reason to believe that the body of Professor S. A. Andree, the arctic explorer, who in 1897 made an attempt to reach the north pole in a balloon, has been found on the coast of Labrador.

A letter received here from the captain of the Danish steamer Inga, dated Labrador, Sept. 30, reports that Captain Chalker, skipper of the American schooner Pelops of Conception Bay, Newfoundland, discovered in northern Labrador a cross bearing the name "Andree," and that beneath this cross he found a body and a box of documents.

The letter from the captain of the Inga was sent from Indian Side, Labrador, and states that the schooner Pelops arrived there from Cape Mugford, Northern Labrador. Captain Chalker reported that he went inland at the place and about a quarter of a mile from shore came upon a simple wooden cross, on which was inscribed the name "Andree."

Has Name Spelled Right.

He dug under the cross and found human remains and a box containing papers. Captain Chalker said that he removed the cross, but he refused to say whether or not the papers were in his possession. He asked the Inga's captain how the name "Andree" was spelled. On being told, he took a piece of paper from his pocket, on which was written the name as it appeared on the cross. It was "Andree."

The place where the cross was discovered is an absolute dessert, and is rarely visited even by the Eskimos. What became of Andree's two companions, if the discovered remains prove to be his, is problematical, but light probably will be thrown upon their fate by an examination of the papers.

Captain Chalker is a half-caste Eskimo, who took part in the landing of the Peary expedition in Greenland.

Started With Two Companions.

The expedition to discover the north pole organized by Prof. Andree, a Swedish explorer, left Danes island, Spitzbergen, in a balloon, July 11, 1897. Prof Andree was accompanied by two companions, Strindberg and Fraenkel.

He was prepared to drop messages relating his progress, and various such communications were discovered during the three months following his departure. No authentic news, however, ever was received concerning the fate of the balloon or its occupants.

In September, 1899, a buoy marked "Andree polar expedition," with an anchor attached, was picked up on King Charles island, and later identified as the buoy Andree was to drop when passing the pole; but the general opinion was that it had been lost overboard or thrown out to lighten the balloon. In September, 1900, a bottle containing a note numbered 143 was found near Vardoe, the most northeasterly port of Norway.

Body Twice Reported Found.

Twice it was reported that Andree's body had been found, but neither of these statements was substantiated. In July, 1902, a circumstantial story was received from York Factory, Northwest British territory, setting forth that Andree and his two companions had been murdered two years previously by a party of Eskimos several hundred miles north of York and near Fort Churchhill.

The Eskimos, the story went, saw the balloon alight on a plain of snow and three men emerge from it. The natives approached, and as they did one of Andree's companions fired off a gun. This was regarded as a challenge, and almost instantly the natives fell upon the three explorers and massacred them. Everything pertaining to the Andree outfit, it is alleged, was carried to the homes of the natives.

HENRY WATTERSON PROSTRATED BY SON'S DEATH

Young Man Fell from Nineteenth Story of Office Building in New York.

New York, Nov. 12.—The body of Harvey Watterson, the young lawyer and son of Henry Watterson, of Louisville, Ky., who met a tragic death late yesterday by falling from a window on the nineteenth floor of a Wall street building, will be sent to his home in Louisville today or tomorrow for burial. It will be accompanied by the young widow, who was almost prostrated with grief when the news was conveyed to her. A telegram received today from friends of the family, said that the father, Henry Watterson, was too ill as a result of the shock, to come for the body of his boy.

The coroner made an examination and announced today the young man's death resulted from accident. In the opinion of the coroner and the police Watterson lost his balance while trying to close a window in the room of his office and, stumbling over a radiator, plunged through the opening to the roof of the adjoining building, 110 feet below.

It was from one of the side windows overlooking the United States Trust Company building that he fell and his body landed on the roof of that building, nine stories below. The impact broke nearly every bone in his body. The death was undoubtedly accidental. Watterson's hands slipped as he was endeavoring to close the window and he fell forward with such force that he was unable to catch the sides of the window or the sill. The sill is low, reaching only to one's knees.

Partner Tells of Accident.

"Mr. Watterson had been in the library for an hour," said Mr. Wing, one of his partners, "discussing with D. B. Wheden, one of the clerks, a point on a case he was to argue. He remarked that it was time to go home and walked through the stenographer's room to his private office. The door between these two rooms closes automatically.

"In a short time we heard a commotion on the roof of the United States Trust building, below, but thought nothing of it at first and had not the slighest intimation of any accident to Mr. Watterson until told by others.

"On Mr. Watterson's desk we found his hat and gloves and some papers which he was to take home with him to use in court today. He had put on his overcoat, and apparently had tried to put down the window, which had remained open all day.

Deny Suicide Was Possible.

"Any idea of suicide is preposterous. He was in excellent health and spirits and had not the slightest trouble, either in his business, home life, or in any other matter that any of us know or have heard of. On the other hand, his domestic life was pleasant and he had abundant reason to be pleased with the success attained in his short career at the bar and with his prospects for the future."

The body was discovered by stenographers in one of the offices on the eleventh floor and the police of the John street station were at once notified. An ambulance call was sent to the Hudson street hospital. Dr. Laurie, who came with the ambulance, said death had been instantaneous. Dr. Lehane had the body removed to the John street police station. Thence it was taken to the Watterson home at 231 Second avenue.

Mr. Watterson was 30 years old. After a preparatory education at his home in Louisville he went to Dartmouth college and subsequently to the Columbia Law school. Five years ago Mr. Watterson was married to Miss Alice Burrowes, who survives him. They had no children.

FATHER TOLD SAD NEWS.

Louisville, Ky., Nov. 12.—When the news of the death of Harvey W. Watterson reached the friends of Henry Watterson, his father, yesterday, a conspiracy to break the news to the veteran editor as gently as possible was formed. Telephone communication with his country home was stopped, and the friends deputed to Mrs. Benjamin Ridgely, widow of the consul general to Mexico, the difficult task. Mrs. Ridgely, suddenly bereaved a few weeks ago of the husband who had been Mr. Watterson's protege and intimate friend, has accomplished her mission.

LEIKAUFS OPEN THE FIGHT AGAINST CITY

Mandamus Suit is Placed on Trial—News of the Courts.

The action in mandamus under which the members of the Leikauf Packing company are seeking to obtain a license from the city of Fort Wayne to conduct a slaughtering house and wholesale meat establishment, was placed on trial before Judge O'Rourke in the circuit court this morning and will probably consume several days, as the city has a number of witnesses to introduce.

In the support of the application for a writ, which had been refused because the health officials said the place was not kept in a sanitary condition, John Leikauf took the stand as the first witness and was questioned at length by Judge S. M. Hench about the arrangements for preventing dust and flies to enter the packing house and as to the facilities for disposing of offal and for keeping the meat and the men who handle it clean and stated that the concern had complied with the regulations of the board of health. There was objection, he said, to the arrangement of the ventilators and the toilet accessories, and these, he said, had been changed.

Dr. H. O. Bruggeman was the first witness placed on the stand by the city and his testimony was a detailed account of the objectionable conditions that existed when the company made its last application for a license on October 5. All of the evidence is technical. Dr. George Gillie, Dr. A. P. Buchman and Sanitary Officer Charles Josse will be sued by the city, as will F. W. Tucker, a state inspector.

Case is Dismissed.

The support suit of Mabel against Henry Erlich was dismissed in the superior court today. Their differences were adjusted some time since.

Celebrated the Fourth.

In her divorce suit today in the superior court Louise Rudert testified that her husband, Edward Rudert, celebrated the Fourth of July this year by holding his hand over her mouth and beating her. She said he had beaten her so often she could not tell the court about all of them and the decree was granted. She was also given the custody of their children.

Commissioners on Visit.

Frank E. Berlin, Wilson Rood and J. B. Gattshall, of the board of commissioners of Elkhart county, accompanied by D. O. Batchelor, the auditor, were in Fort Wayne today making an inspection of the courthouse. They were the guests part of the day of President Joseph Tonkel and John B. Wyss, of the local board.

MUCH MATERIAL FOR MARSHALL.

Indianapolis, Nov. 12.—Thomas R. Marshall, governor-elect, is having no trouble in finding men ready to serve the state in the positions in which the governor has the appointive power. About the best positions which Mr. Marshall will have to dispose of during his term will be the places on the railroad commission. It is said in political circles that Adam Heimberger, of New Albany, vice chairman of the democratic state committee, would like to be a railroad commissioner. The salary of a commissioner is $4,000 a year.

George Schwartzkopf, of Columbus, and Dr. J. W. Klotz, of Noblesville, are mentioned for the position of fish and game commissioner to succeed Z. T. Sweeney.

Gilbert Hendren, who during the campaign was chairman of the democratic state speakers' bureau, would like to be state tax commissioner, it is said. It is also said that Parks Martin, who is now the democratic member of the state tax board, has made no plans looking to the vacation of his position.

Joseph L. Reiley, secretary of the democratic state committee, is said to have his eye on the position of chief oil inspector, now held by Sid Conger.

HOPE TO SAVE OVERSTREET.

Indianapolis, Nov. 12.—The proposed suit for a recount of the entire vote of Marion county, being prepared by attorneys for the republican county committee, was expected to be filed before the county clerk's office today. It is understood that the complaint which is short, has been completed, and that the delay in filing it is caused by the slowness of some of the republican candidates in subscribing to it.

Persons interested in the suit say the charge of fraud will not be one of the allegations of the complaint, but that the candidates will say that they have reason to believe that mistakes were made in the official count.

It developed today that the petition for a recount will not only be in the interest of the republican county candidates, but that it will be in the interest of Congressman Jesse Overstreet, who was defeated by Charles A. Korbly by only 681 votes.

BASEBALL WAR NOT SETTLED.

No Action Taken by National Association In Chicago.

Chicago, Nov. 12.—The National Association of Professional Baseball Clubs adjourned without date, leaving the breach between the American Association and the Eastern League on the one hand and other minor leagues on the other unbridged.

It is stated that the "regulars" informed the "bolters" that they would receive a committee from the "secession" ranks, but this is said to have no clarifying effect on the situation, as the absentees feel that if there are any committees to be appointed they should be chosen at the initiative of the "regulars" to take up differences with the "bolters."

PORTER PLEADS GUILTY.

Is Charged With Permitting Minors in His Pool Room.

At an adjourned session of the city court this afternoon, Thomas M. Porter, proprietor of the Colonial Billiard academy, was charged with permitting minors in his place and made no defense against the charge. The court has not announced a finding, but it is likely that the proprietor will be fined and instructed to cut out all games of chance. He will also be require dto refuse to let minors loiter around the place. There have been numerous complaints against the manner in which the establishment is conducted and the officers will insist that it be run hereafter in accordance with the law. The original affidavit in the case charged Porter with keeping a slot machine.

SIX CHINAMEN DROWNED.

Buffalo, N. Y., Nov. 12.—A gasoline launch towing a clinker boat containing ten Chinamen crossing from Canada, was wrecked on the south break wall today and six of the Chinamen were drowned and four saved themselves by clambering upon the breakwall, from which they were taken by the police boat. The six bodies have been recovered.

Miss Mary L. Jay is still in a very critical condition at the Lutheran hospital. Her condition today is said to be slightly weaker than yesterday.

"Yonder comes another pair of 'em," said the hotel clerk, nodding toward two drummers entering the lobby. "It's getting to be a great act among traveling men of late to move over the country in pairs. Those two fellows there always come together. They're in entirely different lines of business, too. They claim they can save money by traveling together not only on their hotel bills, but in other ways, and that the scheme has divers and sundry other advantages." — Cleveland Plain Dealer.

PLAN TO PLACE CURB ON KAISER

[Continued from Page One.]

England, France, Italy and other countries. No change in the constitution of an act introducing ministerial responsibility is necessary for the attainment of this end.

In Contrast With England.

"The system of parliamentary government was brought about without the alteration of a single paragraph of the law. The king of England even today is empowered to act, as is Emperor William, in the filling of ministerial posts, but the British parliament, owing to its control of the budget, could make the carrying out of his duties impossible for any minister who enjoyed only the confidence of the sovereign and not that of the house of commons.

"The German reichstag, constitutionally, is in a similar position. It need only to resolve and national public opinion must compel it to resolve, on such a proceeding.

"The role of democratic liberalism is to take the lead in this constitutional battle, and is the duty of the more moderate liberals to collaborate, but so long as the members of that party are bound by the chains of the 'Bloc' they cannot fulfill their duty. At present they have joined the conservatives, who combat every sincere effort toward constitutionalism. This the conservatives do because, owing to their relations to the crown, they do better business under the personal system."

REFUSE TO REBUKE KAISER.

Berlin, Nov. 12.—After bitterly scoring the kaiser verbally for his "indiscreet actions" in interfering with the empire's foreign policies the reichstag last evening voted down a resolution to send an address to the emperor calling attention to the danger of his majesty's personal actions.

The decision not to rebuke the kaiser, especially in regard to the London Telegraph interview, which aroused Europe, was made only after one of the most bitter debates ever made in the reichstag. Representatives of all the leading parties took part, and Chancellor von Buelow was made to bear the brunt of their attack.

Members of several of the groups refused to accept the chancellor's explanation with regard to the emperor's interview in the London Daily Telegraph as satisfactory, or as offering guarantees for the future, but when the proposition of addressing the emperor formally on the subject was put to the house the governmental majority did not hesitate in voting against it.

Chancellor von Buelow listened unmoved virtually throughout the whole afternoon to personal attacks against him, only leaving the house for a short time to attend the sitting of the Prussian cabinet. It was generally expected that he would speak again today, but the chancellor disappointed the members.

Baron von Kiderlen-Waechter's defense of the foreign office, which was so closely identified with the "interview," was received with loudly expressed derision by the socialists.

CERMANS CELEBRATE VICTORY.

Indianapolis, Ind., Nov. 12.—In celebration of the democratic victory in Indiana at the election last week the members of the Alliance of German Societies of Indiana met in a ratifying gathering in the hall of the Independent Turnverein last night. Phil Rappaport, secretary of the alliance, made one of the principal addresses of the evening. He declared that the people of Indiana "have a right to demand the repeal of the county local option law." Joseph Keller, president of the alliance, also made an address along the same lines. The speaking was in German.

AUTO PARTY'S NARROW ESCAPE.

Indianapolis, Nov. 12.—A party of six narrowly escaped death early this morning when an automobile belonging to William Russe collided with a street car at Senate avenue and Washington street. The machine was wrecked and all the occupants were injured. The most seriously hurt were Andrew Schackels, engineer of the Deaconness hospital and Della Bahelmer. It was not known at the hospital whether their injuries would prove fatal. The other members of the party were Della May, Paul C. Russe and George Crandall. All of them are in the hospital.

The Indiana state library has offered the administrator of the estate of Judge Charles B. Lascelle $200 for the files of old Logansport and Cass county papers, which the old pioneer had in his possession when he died. Lascelle was born in Vincennes in the early thirties, and the writer of "Alice of Old Vincennes" obtained much of his material for that story from him. A few moments later he learned that the victom was the son of a neighbor. Young Ladow and Fred Haskins were returning from Angola, where they had attended an entertainment. Their horses became frightened and threw them from the buggy. The animal then turned down the lane leading to Loughrey's barn, and Ladow was leading it back to the roadway when he received the charge of shot.

The robbery of her house took place while she was on a trip to a nearby town. Robbers entered her house and took all her jewelry and other valuables. Although living alone in the hills she is not afraid and has armed herself with a gun and revolver and is holding down her claim until she has satisfied the homesteaders' law.

SENTENCED TO PRISON.

Jury at Marion Finds Farmer Guilty of Assault on Girl.

Marion, Ind., Nov. 12.—A jury last night found Elijah Harrell, 54 years old, guilty of assault on a 12-year-old girl, sentencing him to a term in the penitentiary from two to twenty-one years. Harrell's attorney asked for his acquittal on the plea of insanity. The state's attorney made frequent reference to the Thaw murder case in his argument replying to the defendant's plea of insanity.

Fate Pulley, a principal witness for the prosecution, became enraged at a reference made to him by A. E. Steele, one of the defendant's attorneys, and he sought to reach the lawyer. A bailiff, however, restrained Pulley. Elijah Harrell was a farmer and was formerly a justice of the peace in his township.

Father of Fifty Children Sentenced for Non-Support.

Taunton, Mass., Nov. 12.—Clement Cunha, 63 years old and father of fifty living children, was sentenced to the workhouse for a year yesterday on a charge of non-support and neglect of his 4-day-old twins.

Cunha two days ago reported to the authorities that a woman and her new born twins were starving. An investigation showed Cunha was the woman's husband and he was arrested.

On the witness stand he admitted he had a divorced wife living in New Bedford to whom he had been married eleven years. During that time she had given birth to five sets of twins, two sets of triplets, and two odd sons, eighteen children. Another divorced wife, who now is in Portugal, is the mother of all his other children except a set of twins born to his present wife and a daughter who preceded them.

"How many children, all told, have you?" asked the judge.

"Fifty living," was the answer.

Cures Eczema Quickly

New Drug, Poslam, Now Obtainable In Small Quantities.

Since its discovery one year ago the new drug, poslam, has successfully cured thousands of chronic cases of eczema and other distressing skin afflictions. Heretofore poslam has been dispensed solely for the benefit of eczema patients in large jars sufficient for a month's treatment. Tube was found to be an inconvenience to many thousands who use it for minor skin troubles, such as pimples, blackheads, herpes, acne, scaly scalp, complexion blemishes, itching feet, piles, etc., which require but a small quantity to cure. To overcome this, and in response to urgent appeals, the dispensers of poslam have been obliged to adopt, in addition to the regular two-dollar package, a special fifty-cent size, which in future may be found on sale at Meyer Brothers' and other leading drug stores in Fort Wayne, or may be ordered direct from the Emergency Laboratories, No. 32 West 25th Street, New York City. In all eczema cases poslam stops itching with first application, and proceeds to heal immediately, chronic cases being cured in two weeks. In less serious skin troubles, results are seen after an overnight application.

Samples for experimental purposes may still be had, free of change, by writing to the laboratories for them.

Fine indications that some ancient grudges are going to have their day in court when the democratic legislative caucus gets in action to choose a United States senator.

It is at least encouraging to know that one of the men who had a hand in the assassination of Senator Carmack is held in jail without bond. Still Tennessee may merely be paying deference to forms while not in the least abating her loyalty to traditions.

Tim Woodruff doesn't like the proposal of Elihu Root for United States senator to succeed Platt. This opposition expected, of course. Tim doesn't like the proposal of anybody for any office he's trying to get himself and he's been after them all. As a runner for office Timothy holds the records for all distances from short dashes to the Marathon.

Slight clew to a more or less prevalent notion of what tariff revision should mean is had from the testimony of American dye manufacturers, who are asking that duty on finished product be boosted and duty on raw materials wiped out. Thus we are shown the way the burdens of taxation are going to be lifted if numerous gentlemen and corporations that make things strike a convincing attitude before the ways and means committee.

It doubtless appeals to the kaiser as the most striking difference between Germany and the United States that the chief ruler of this country can and does do all the talking he likes about anything he likes without stirring up any such hullabaloo as has been taking place in the reichstag for two or three days. His imperial majesty has escaped censure, but in such fashion as may be esteemed a warning from the reichstag not to be so confounded copious hereafter with his remarks on foreign affairs.

Perfectly willing up this way that Indianapolis should boom the west fork of the White river as having navigable waterway possibilities both elegant and immense, but don't want a project the size of the Lake Erie-Lake Michigan canal submerged in a stream that has a habit of going dry now and then. Most of the time Pogue's run is quite as navigable as White river. However, no one up this way has it in mind to objecting to Indianapolis making of the west fork anything that turning money into it can turn it into.

Some diligence by the police specifically directed to the uncovering of slot machines doubtless would be rewarded. It is reported that among other phases of the post-election business revival is the booming of these gambling machines. Confiscation of a few of them would have a most salutary effect on the gentlemanly agents who have lately been passing around among local saloonkeepers with liberal propositions for installation of the outlawed devices. For a time Fort Wayne had practical enjoyment of immunity from this evil. If it is true that the law is again being defied the police department is at least cognizant of, if not familiar with, its duty.

The city council should undertake to find a way to provide more money for the street cleaning department. Fort Wayne streets just now are in a discreditable state and there is not a very promising outlook for improvement. The cleaning department no doubt is doing the best it can with the means at its disposal, but continually hampered by a lack of funds its efforts do not show up well for the city. The city will find economy in more liberal appropriations for street cleaning. Accumulations of dirt on the asphalt streets contribute greatly to the wear upon the pavement and repairs of an expensive character are likely to become necessary much sooner than if the streets are kept clean. Fort Wayne is far behind many other cities of its class in the matter of money appropriated for street cleaning. The prospect of a continuance of present weather conditions makes the problem more acute and there seems to be no present way of affording relief.

FULL SUFFRAGE FOR HUNGARY.

New Bill, However, Places Power In Hands of Intelligent Citizens.

Budapest, Nov. 12.—The bill providing for universal suffrage in Hungary was presented to the chamber of deputies yesterday by Count Andrassy, minister of the interior.

It contains many novel provisions designed to retain power in the hands of the intelligent sections of the population.

The bill provides that every Hungarian over 24 years of age who has resided in any commune for the space of one year is entitled to vote. Illiterates, however, will be assembled in groups of ten, and each gang will have the power to select a single elector.

The bill also provides that all electors over 32 years of age who have fulfilled their military duty and who have three children shall have two votes.

Workmen who have spent five years at the same trade, as well as workmen who have graduated from specified classes of the secondary schools, also are given a double vote.

Electors who have completed the full course of the secondary schools or who pay $20 in direct annual taxation are given the high privilege of voting three times.

TRAFFIC IS TAKING HOPEFUL TREND UPWARD

General Manager Emmons is Pleased With Present Outlook.

Business along the Fort Wayne and Wabash Valley Traction lines is beginning to show marked recovery, and General Manager Emmons believes the gains shown during the past week or more will continue until the former high water mark for business is reached or surpassed.

It is learned that thus far for November the business of the big traction syndicate shows a total in excess of the receipts for the corresponding time a year ago. This is the first time an increase has been shown since before the business slump a year ago. The month of September, 1907, immediately in advance of the panic, is still the company's record month for business.

On nearly every division of the interurban system an increase in business is now being shown and there is also a marked increase in the city street railway receipts during the past two weeks. The magnificent weather that has prevailed during the greater part of the fall has cut heavily into city street railway receipts, for it induced many people to walk who would otherwise have used the cars, and the loss in business from this source has been very marked. With the coming of colder weather, however, pedestrians will again take to the cars.

Leaks in Lighting.

One of the troubles which is always present with the company, but especially aggravated during the winter season, is the virtual stealing of electric current by users of electric lights who equip the wiring system in their homes and places of business with a device known to th eelectric lighting men as "jumpers," in order to escape payment for a large portion of current consumed. It is said that during the past month more than a score of these cases have been detected in Fort Wayne. When the theft of light is discovered the company promptly takes up the meter and cuts off electric service entirely.

WOODRUFF BALKS AT ROOT.

New Yorker Opposed to Secretary as Platt's Successor.

Washington, D. C., Nov. 12.—That Timothy L. Woodruff, republican state chairman of New York and ex-lieutenant governor of the state, is not in accord with the plan to make Secretary of State Root the successor of Thomas C. Platt as United States senator from New York, preferring to remain in the race for the togn himself, was made evident at a conference of republican leaders here yesterday, in which President Roosevelt played a conspicuous part.

It also developed that Mr. Woodruff is in a position seriously to hamper the Root program in case he cares to exercise the power the leaders admit he possesses.

For several days it has appeared that if Secretary of State Root decided to become an active condidate other aspirants for the place would withdraw.

Mr. Woodruff has not assented to the program of eliminating all candidates except Mr. Root. He declined to commit himself on the subject and none of those remaining here was authorized to speak for him.

F. W. URBAHNS VERY ILL AT FOND DU LAC

Case Seemed Hopeless But Patient is Said to be Holding His Own.

F. Will Urbahns, former Fort Wayne man, is very critically ill at Fond du Lac, Wis., and while dispatches last evening indicated that his case was almost hopeless, information at noon today is to the effect that the patient is holding his own and that there is some possibility of his recovery.

Mr. Urbahns, formerly a Nickel Plate train dispatcher here and later clerk of the waterworks board in Fort Wayne, went to Fond du Lac about three years ago to take a position with the Wisconsin Central railroad. Later he became assistant superintendent, a position which he now holds.

News of his illness reached Fort Wayne yesterday in a telegram to relatives stating that Mr. Urbahns had undergone a surgical operation and that physicians did not believe he could recover. His brothers, A. E. Urbahns and D. F. Urbahns, left at once for Dond du Lac. The latter telegraphed today to the effect that it is now believed the invalid has some chance of recovery. He was suffering from obstruction of the bowels.

COAL WAR HAS RESULTS.

South Bend, Ind., Nov. 12.—The war between the coal dealers of South Bend has resulted in a request being sent to the common council for the appointment of deputy weighers, who are to be stationed in the yards of the coal companies for the purpose of insuring full weight. Following the cut in prices made by new firms, the old established companies complained that the new comers were giving short weight.

JUNKER STABS OFFICER.

Crawfordsville, Ind., Nov. 12.—Policeman John Brothers was stabbed in the abdomen by James Scott, an itinerant horse trader and junk dealer, who gives Terre Haute as his home. Scott was in a saloon and was reported to be "tearing up" things. When the policeman attempted to arrest Scott the latter drew a knife and used it, but not with fatal results.

SOME SPECULATION AS TO PROBABLE PRICE OF TURKEYS

Bird May Not be in As Heavy Demand As at Last Thanksgiving.

There is considerable speculation among the farmers this week as to the probable condition of the turkey market for Thanksgiving consumption. It is the general belief that the bird will not be in as heavy demand this season as it was last. This belief is backed up by the fact that only about a third as many inquiries have been received concerning them.

The turkey market was so high last year that at that time many people decided to forego the luxury in the coming years. Should the supply this year decrease as much as the demand, the market would rule at about the same price of last year. Farmers admit that they have not raised as many turkeys for this season as previously, but it can not be estimated just how much the supply will be decreased. The present price for live stock is 13 and 14 cents per pound with 18 and 20 cents per pound being paid for dressed stock. And from present indications this may be the price that they will sell at next week. It is about the same price that was paid for the fowl last Thanksgiving and is considered rather high.

Dealers and farmers alike say that the turkey market this year presents a most puzzling aspect owing to the uncertainty of both the demands and supplies, upon which the quotations are founded. Farmers are endeavoring to contract with grocerymen and other dealers for their entire supplies this year, but the latter are not showing any too much willingness to take hold of them.

Plain talk, but it's true; *alcohol* in any form *is a poison.* It *destroys* a man's will-power, at the same time *ruins* his nerves and stomach. Unfortunately he invariably is of the belief that it does not hurt him, as he says he feels better after taking a drink. He honestly thinks it braces him up, but the truth is, it only *numbs his mind and weakens his nerve and muscle forces.* As soon as the effect of the drink wears off he is *worse* than before. He must *have your help* at this time. Scolding, pleading or praying will not cure the diseased mind and nerves. WHITE RIBBON REMEDY *WILL!* It will build him up, make him eat and sleep better and entirely remove his desire for liquor.

WHITE RIBBON REMEDY is a powder, which is absolutely *harmless,* it has neither taste, color or odor, when placed in tea, coffee or food. There is no need to get the drinker's consent to take it, as you can successfully give it to him without his knowledge.

CLASS WILL BE LARGEST IN HISTORY OF LODGE OF PERFECTION

Rites Will be Conferred Upon Class of Fifty-Eight Candidates.

At the fall convocation of the bodies of the Ancient and Accepted Scottish Rite Masons of the Valley of Fort Wayne to be held in this city on next Tuesday and Wednesday the largest class in the history of the Fort Wayne Lodge of Perfection will be taken in. It will consist of fifty-eight candidates. At the laying of the cornerstone on the new cathedral about two months ago a special "cornerstone" class of forty-four candidates was initiated and this class equalled any ever taken in at one time.

As is usually the case at both the spring and fall convocation of the Masonic bodies in this city, there will be between two and three hundred Masons living in other parts of the Fort Wayne valley in attendance. Secretary Charles E. Read states that several of the higher officers from Indianapolis are also expecting to be here and there is no doubt but that the convocation will be notable in many ways.

The convocation work will begin at 2 o'clock Tuesday afternoon when degrees from the fourth through the thirteenth will be conferred by the Lodge of Perfection. In the evening the same lodge will confer the fourteenth degree under the direction of Thrice Potent Master William Geake. The Lodge of Perfection quartet will render a musical program at the evening meeting.

On Wednesday morning work will be taken up by the Darius Council, Princes of Jerusalem, with James B. Harper as sovereign prince. The fifteenth and sixteenth degrees will be conferred with the ritualistic work conferred by a large degree team composed of officers. In the afternoon, commencing at 2:30 o'clock, the seventeenth and eighteenth degrees in the Emanuel Chapter of Rose Croix will be conferred under the direction of William Geake. The convocation will conclude with a banquet at 6 o'clock in the evening. S. H. Hubbel, 32nd degree, of Goshen, will preside as toastmaster and responses will be given by a number of the prominent members of the order.

INITIATION FEE NOW $10.

The initiation fee for admittance into the ranks of the Mechecaunnochqua Tribe, No. 106, I. O. R. M., was advanced from $5 to $10 at a meeting last evening when an amendment to that effect was adopted in the by-laws. The subject of raising the death benefit from $50 to $100 came up for discussion, but final action upon it was deferred until the next meeting.

Fifteen applicants have already made known their desire to be initiated on the 25th of this month, when it is expected a large class will be taken in.

PLANNING TO RAISE $6,000,000 FOR THE GOSPEL

Methodist Laymen Organize at St. Louis to Work in Foreign Fields.

St. Louis, Mo., Nov. 12.—Laymen of the Methodist Episcopal church to the number of 300, and representing all parts of the United States, met yesterday in the Union Methodist Episcopal church and organized what is officially called "the laymen's missionary movement of the Methodist Episcopal church."

The purpose of the movement is to put before the laymen of the church the fact that to their church is assigned the task of evangelizing 150,000,000 or more of the non-Christian population of the world.

A new scale of giving was declared to be necessary in benevolence, home and foreign, as well as in the local church budget. Each year this offering is to be increased, so that by 1912 the Methodist Episcopal church alone will be giving to foreign missions $6,000,000 annually.

For the Foreign Field.

It was decided to confine the stated object to work in behalf of the foreign field.

Col. E. W. Halford, of Washington, D. C., said: "Other churches have adopted the foreign work as their only avowed object, and we ought to get in line and keep step with them in a union movement.

Rev. Dr. F. M. North, of New York declared that the home work was equally needy and its support showed equally a true missionary spirit.

J. Campbell White, of New York, general secretary of the interdenominational laymen's missionary movement, spoke in explanation of the interdenomination features of the movement.

Plea for United Work.

"The conversion of the world," he said, "is too large an undertaking for any one denomination. The protestant church members of the United States pay over $50,000,000 a year for the military establishment of the country and less than $9,000,000 a year to the spiritual conquest of the non-Christian world."

Dr. H. N. Carroll made an address on the possibilities of missionary advance. Four of the bishops also addressed the meeting—namely: H. W. Warren, of Denver, J. M. Thoburn, of India, J. C. Hartzell, of Africa, and W. F. Oldham, of Malaysia.

Choice of the Officers.

The officers elected included: President, J. Edgar Leayeraft, New York; recording secretary, James R. Joy, New York; treasurer, J. T. Stone, Baltimore.

The executive committee is made up of the following laymen: George W. Brown, St. Louis; H. K. Carroll, New Jersey; W. O. Gautz, New York; Charles Gibson, Albany, N. Y.; E. W. Halford, Washington, D. C.; William Christie Herron, Cincinnati; Frank A. Horne, Brooklyn; H. W. Moore, Denver; C. E. Welch, Westfield, N. Y.; S. Earl Taylor, New York; H. B. Williams, Chicago.

HAPPY DISCOVERY.
Looking for Medicine, Found Food.

In looking for a recommended remedy in a newspaper, a sick woman found the food which restored her to health. She writes:

"About three years ago a spell of sickness left me so weak that it was an exertion to move my hand.

"My appetite was gone and what little I did eat, distressed me so I had better left it alone. The doctor saw I was getting weaker and advised me to take cod liver oil, but my stomach would not tolerate it.

"Then I was told to take egg-nog with stimulants to strengthen me, but that did not agree with me. I was getting discouraged, when a lady sent me a paper in which there was a medicine advertised which she thought might help me.

"In looking through the paper I saw an adv. telling how strengthening was Grape-Nuts food. Strength was what I was after, so I sent for a package of Grape-Nuts.

"I was so bad that the cream I used with this food, distressed me, so I took one teaspoonful of dry Grape-Nuts and ate it, using no liquid until I was through.

"To my surprise I felt no bad effect. The next time I took two teaspoonfuls with the same result. It was not long before I could eat three teaspoonfuls, with the result that I was gaining strength and my stomach was feeling much better.

"I know it was owing to the Grape-Nuts because that was all I was eating. It was not long then, until I could eat cream with the Grape-Nuts and no distress. From then on all was well, and there are very few meals eaten at our table without Grape-Nuts."

BRYAN GIVES HOPE TO DEMOCRACY OF NATION

Says Party Has Done More Out of Office Than Republicans In.

Lincoln, Neb., Nov. 12.—Declaring the democratic party cannot die and has accomplished more out of office in the last twelve years than the Republican party has in office, W. J. Bryan bids his supporters not despair. In the coming issue of his Commoner he speaks of the election results and discusses the future. He says:

"The election of 1908 is over and the returns disclose a signal victory for our opponents, but the principles for which our party stands, the policies for which our party contends, these are not dead.

"Does any one believe the American people will permanently permit secrecy as to campaign contributions? Does any one believe the American people will permanently permit the will of the voters to be thwarted, as it is now, by the election of senators through legislatures? Does any one believe the trusts will be permitted permanently to exploit the masses? Does any one believe the consumer will permanently permit the tariff to be written by the beneficiaries of that tariff? Does any one believe the public will permanently tolerate an estrangement betwewen labor and capital? Does any one believe 15,000,000 of depositors will forever permit their savings to be jeopardized as at present? Does any one believe the extravagance of government will go on forever unchecked? Does any one believe our republic will permanently consent to a colonial policy with its humiliations and its financial burdens?

Says Party Has Done Much.

"During the last twelve years the democratic party has accomplished more out of office than the republican party has accomplished in office, and this is a sufficient reward for those who fight for the righteous cause. It would have been pleasant to have been able to reward worthy democrats with official positions. They are looking for good government and they labor unselfishly for the promotion of good government.

"As for myself, let no one worry about my future. The holding of office is a mere incident in the life of those who are devoted to reforms. The reform is the essential thing. If one can advance reforms by holding office then holding of office is justifiable; if one can best advance reforms as a private citizen, then holding of office is undesirable.

"The world owes me nothing. I have been abundantly compensated for what I have been able to do. My life will not be long enough to repay the people for their support and for the confidence they have expressed.

"With an abiding faith in the triumph of truth and an unfaltering confidence in the righteousness of our cause, I speak this word of encouragement to those who call themselves friends. I shall keep step with them and march on. If we are right, as I believe we are, it will vindicate us; if we contribute, as I believe we are contributing, to a cause that is founded on justice our efforts will weigh in final victory."

PACKARD MUSIC HOUSE
930 CALHOUN STREET

IN THE THEATERS

A play which arouses the audience to a high pitch of enthusiasm is indeed an attractive offering at this time. Such a play is "The House of a Thousand Candles," which Wright Huntington and Our Own Stock company will present at the Majestic theater today, Friday and Saturday.

The play is an Indiana romance and the plot is laid around a mysterious house on the shores of a romantic lake. The surroundings are pleasing and the coloring beautiful in conception and in execution. The stage pictures will be charming. The story is one of love and mystery and gives ample scope for a delightful story of sharp incident and dramatic situation. The play has been skillfully written from Meredith Nicholson's novel of the same name and will prove one of the very best offerings which has served as a vehicle for the introduction of the company in a series of very attractive plays.

Music that rings in the ear and puckers the lips for whistling is the kind of music that runs all through "In Panama" in which the Rogers Brothers Co., Inc., are starring Max Rogers. This musical comedy has no sympathy for care or worry and is the personification of rapid, rollicking, roaring fun. It will be seen at the Majestic on November 26.

It is not generally known that Raymond Hitchcock is a song writer but such is the case nevertheless. The words of the song which he renders in the second act of "The Merry-Go-Round," called "Recollections," during which he poses as a Grand Army Man and one of the best things in the musical comedy are his, the music being contributed by A. Baldwin Sloane.

JIMMY RYAN TALKED OF AS MANAGER OF STAGS

Veteran May Have Chance to Buy Grand Rapids Team.

Jimmy Ryan, one time manager of the Evansville team in the Central league, later with Montgomery in the Southern league and still later a semi-pro manager in Chicago, is one of the possibilities for the leadership of the Grand Rapids team.

President Carson is determined in the matter of allowing no syndicate ball in the Central and is giving his personal attention to making a deal for the transfer by Bert Annis of either South Bend or the Stags. He is engineering the deal with Ryan who will be the purchaser if an agreement is reached.

Ryan was not particularly successful with Evansville but he knows the game thoroughly and might inject little more judgment into the running of a team if he were financially interested.

* * *

Report has it that Manager Jack Hendricks will not insist upon his draft from Lansing of Pack Morrissey because President Joe Jackson of the Southern Michigan league has stepped in with a request that the player be allowed to remain in the organization. He is captain and manager at Lansing and his loss would be a severe blow to the team.

Morrissey managed Grand Rapids for a time and is a hard-hitting infielder, but since Frankie Donahue has been purchased it is not likely that the local management will insist on the draft. The infield will be safe without him if Tony Fremer shows anything like the form he can play in when he is going right.

* * *

Along with the talk of a manager for Grand Rapids and the likelihood of a deal with Jimmy Ryan is sent out a report that Angus Grant is acting in the interests of the team and that he will probably manage it next year. Dr. Carson will closely scrutinize any deal that may be made between Annis and Grant and will satisfy himself that it is on the level.

Grant sent copies of his reserve list to the Grand Rapids papers and notified them that he had transferred two or three players from South Bend to the Stags. Grant has been trying for some time to get an interest in a ball team and Grand Rapids would just about suit him. He feels that he has been at South Bend as long as a manager ought to be in one city and for that reason desires a change.

* * *

Manager "Hub" Knoll, of the champion Evansville team, will go to Little Rock on a draft, according to a statement made by the club owners and unless Mike Finn can be brought to see the bad policy of drafting a club manager there will be some tall hustling down state. Knoll, Kustus, Dunn, Wacker and French will be out of the team. This puts the river town in a bad way for material and to get any way near the flag in 1909 it will be necessary to get busy.

Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Story Corner for Base Ball Fans

Algy McBride, the clever and good-looking shortstop of the Nationals, and Jim Delehanty, the hard-working second baseman of the Washington outfit, were at one of the moving picture shows one night last season, and after the affair both of the ball players, feeling in the humor for something to eat, adjourned to a cafe in the neighborhood of the place of amusement. Here the Washington players gave their orders to the waiter who was in attendance at their table.

McBride ordered one fried egg, among other things, and when Algy supposed he had waited time enough without the egg putting in an appearance, he turned to Jim Delehanty and asked:

"Say, Jim, do you think that fried egg will be long?"

"No," shot back Delehanty, "it will be round."

* * *

The suspension of Fielder Jones on Umpire Connolly's report of that player's actions on the field while the White Sox were in Philadelphia, bred a lot of discussion and brought forth a lot of reminiscences about the various run-ins that ball players and umpires have had, with the umpires always getting the better of it in the long end.

As Tim Hurst tells the story, the only player who ever bested him was Pete Chiles, who worked at second base for the Philadelphia National league team about ten years ago. This spike-shoe genius would never say anything in such a way that Hurst could get back at him, but he would let Hurst know all right that he was knocking him and he would go about this way: While standing at the bat he would start in on the angry but powerless Hurst as follows:

"Dear me, Mr. Hurst, you will soon have to be wearing strong eyeglasses, won't you? I suppose as old age and dissipation get after a fellow they are bound to affect a person's sight. I hear that they are going to appoint a man as a National league umpire who has just lately come out of a blind asylum; but I am not surprised, are you? Anything in the umpire line appears to go in this league, judging from the men who are working here now. Honest prize ring referees (Tim was then a prize ring referee) are mighty scarce articles nowadays, ain't they, Mr. Hurst? It's a pity that One-eyed Connolly (a noted sporting character) never broke into the umpiring business, ain't it, Mr. Hurst? I suppose that he still possesses some shreds of conscience."

And Chiles would keep this line of talk up, with variations, asserts Tim, until he was almost crazy from the jibing, yet Pete was entirely too shrewd to do anything that Hurst could openly charge him with. "When he wasn't slurring me," said Tim, "he would come up and, in the presence of a crowd, would pretend to see a mosquito or something else on my cherubic countenance, and in knocking it off he would do it with so much force that he might as well have taken a long arm swing, as he had a paw on him that was like a ham, and when he did this apparently friendly mosquito-brushing act I could imagine that my jaw was being broken. But, thank the stars," added Tim, "Chiles was the only man in the big league who was clever enough to get by with his stunt, for if there had been more like him it wouldn't have been a great while before murder was committed."

DERMOTINES TAKE A SERIES IN BIG BATTLE

Superbas Kept Them Going in All of the Three Contests.

At St. Mary's alleys last night the Superbas chased the Dermotines right through the series and in the first and last games some exciting finishes were furnished the spectators. The Dermotines took the series but had to do some good bowling to capture it.

Leo Alerding was high man for the winners, and also took the top average, but fell one pin behind Charlie Brink, who was the best man among the losers. The scores follow:

COMISKEY OFFERS A BIG PRICE FOR CRIGER

John I. Taylor Turned Down $10,000 for His Catcher.

Chicago, Ill., Nov. 12.—Comiskey offered President John I. Taylor of the Boston Red Sox $10,000 for Catcher Lou Criger Tuesday night and Taylor told of the offer yesterday. He withstood the temptations of a check for that sweet sum and Criger will remain with Boston.

The boss of the White Sox refused to discuss the offer when asked about it. Why the sox should need another catcher of Criger's caliber could not be explained, unless Comisky expects Sullivan to retire. "Sully" is now in Ireland collecting a fortune recently inherited by Mrs. Sullivan. Another windfall to Sullivan himself some time ago, besides the small fortune "Sully" has saved during his career behind the bat, puts him in a position to quit baseball whenever he pleases.

Of course, it is handy to have two catchers like Sullivan and Criger on a team, but only one can work at a time and except in case of accident one would have to sit on the bench. However, Comiskey was most anxious to get the Boston star. His offer of $10,000 for a backstop whose health is none too good and who has seen the service that Criger has is entirely without precedent.

Criger and "Cy" Young are the only players left on the Boston team who were part of the championship machine which represented Boston in 1903-04. Criger was kept out of the game during almost the entire season of 1907, but his health improved last year and he caught a good share of the games. Taylor expects him to be able to catch at least 100 games next year. The Bostons are counted on as a dangerous pennant contender. President Taylor left last night for San Francisco.

Cures Pelvic, Nervous and Chronic Diseases and guarantees satisfactory results in all cases he accepts for treatment.

"Necessity is the mother of invention." The medical profession long ago realized the necessity for improved methods in the treatment and cure of the many diseases of the human body.

One of the greatest obstacles was the fact that there were so many different diseases to treat that it was impossible to thoroughly understand all of them. Hence it became necessary to make a specialty of a certain disease or group of diseases in order to give them the attention necessary to accomplish the desired results.

I have made a special study of PELVIC, NERVOUS and CHRONIC DISEASES and have perfected methods that positively and permanently cure these DEEP SEATED and CHRONIC diseases in which the ordinary methods have failed.

VARICOCELE, STRICTURE, RUPTURE, PILES, FISTULA, ETC., cured without the knife and without detention from business.

BLOOD POISON—I use only the most advanced methods in the treatment of Blood Poison and kindred diseases.

PROSTATIC ENLARGEMENT—Results from inflammation. I reduce the enlargement and have been able to cure about 90 per cent of all cases.

THE SHOP AND RAILROAD NEWS

MONEY FOR WINONA LINE.

The Financial End of Project Is Complete.

A telegram from New York says that it has been announced there that $300,000 has been raised with which to complete the extension of the Winona Interurban Railway company's line from Warsaw to Peru, Ind. Last year $100,000 was raised among the directors for this purpose. When this extension is completed it will be possible to travel from Chicago to Louisville by electric traction lines by way of Indianapolis.

BUSY AT OTHER SHOPS.

Pennsylvania Needs Men at All Points.

Wellsville, O., Nov. 12.—Because of the action of the officials of the Cleveland and Pittsburg Railroad company in getting all their freight rolling stock in repair, a shortage of car repairmen is being faced by the shop foremen. Over 150 have been put to work during the past week, and more would be given employment if they could be secured. Laborers are also in demand. The company is preparing to handle a heavy freight traffic during the winter months.

GATHERING OF SHOP CLERKS.

Pennsy Men Here to Discuss Matters of Interest.

All of the Pennsylvania Northwest system shop clerks are holding a meeting at the company's committee rooms in this city today. W. L. Wilt, chief clerk of the motive power department, called the meeting and is presiding over it. Other participants are J. H. Hobrock, Fort Wayne; George Brown and E. J. Remensnyder, Allegheny; A. P. Richardson, Wellsville; R. Henderson, Newcastle; J. B. Dugan, Cambridge; H. Weschler, Chicago; J. W. Winters, Crestline, and W. G. Moore, Toledo.

WORKING FULL TIME.

Locomotive Repairmen Put on New Schedule.

The men in the Pennsylvania shop engaged in locomotive repair work, who were put upon a nine hour workday schedule a few weeks ago, have again been given full time, with a Saturday half-holiday. The new schedule became effective last night, when the men worked until 6 o'clock instead of only to 5 o'clock. The increase in working hours will be accompanied by an increase of several thousand dollars in the shop's pay rolls.

WILL CUT RUNNING TIME.

When the Philadelphia-New York division of the Pennsylvania has been electrified, as stated by The Sentinel it would be, the company will be able to cut the running time of its fast trains between those cities in two. This will mean a shortening of the running time of the eighteen-hour New York-Chicago flyer to seventeen hours; it will also make a cut possible in the running time of the other through passenger trains. As previously stated by The Sentinel the Westinghouse company is building a number of electric locomotives for the Pennsylvania. One has been completed and in a test in actual operation it developed a speed of 120 miles with little effort. The distance between New York and Philadelphia is 90.3 miles and the Pennsylvania Special, the fastest train on the road, covers it in one hour and forty-two minutes; the electric locomotive will take the train over the same stretch of road in about fifty-five minutes.

BETTER THAN LAST YEAR.

Dealers in Building Material Report Good Business.

Planing mill owners and dealers in lumber and building material report a decided improvement in business this month over the same month of 1907. There is an unusual number of big jobs on hand, besides innumerable small dwelling houses being erected and repairs on buildings of all descriptions. One firm has booked orders for over $10,000 worth of finished and building lumber within the past ten days.

LITTLE CHANGE IN IRON TRADE.

The past week brought no improvement in the business conditions in the iron trade as it effects the Fort Wayne Rolling mills. In some quarters an immediate change for the better was expected this week, but reports from the mills do not indicate any increase in the number of orders and one of the officials said last night that if there is to be a flood of orders it will be later; "it has not reached us yet." There is some business, but it has not shown any increase in the past week and the mills are still running at about 50 per cent. of their capacity. Other industries report an improvement, however, and it will reach the Rolling mills soon, no doubt. Yesterday the company made a nice shipment of bar iron to Fond du Lac, Wis.

SOCIAL JANUARY 19.

J. H. Haberly, W. A. Braun, H. G. Boers and W. H. Crighton, who comprise the entertainment committee for the Fort Wayne Electrotechnic club, announce January 19 as the date of the annual social of the club. T. T. King, the secretary, also announced the program of the lecture course for the season, which, in addition to those numbers mentioned by The Sentinel yesterday, includes addresses by Judge R. S. Taylor, A. A. Serva, F. Schanz, A. L. Hadley, O. Cooper, C. H. Worden. The subject each will take will be announced in The Sentinel just previous to the meeting.

MESSENGER'S PECULIAR MISHAP.

Ed Koenig, a messenger in the telegraphic department of the Nickel Plate, met with a peculiar and painful accident yesterday afternoon. In walking through one of the halls at the superintendent's building, carrying in one of his hands a long pair of shears, the tool struck against a door-jam and one of the blades entered the young man's leg to the depth of three inches, puncturing an artery. John Hughes gave the wounded man first surgical aid and the wound was dressed by the company's surgeon. It is not serious.

MAKING AN ENGINE TEST.

Pennsylvania engine 7425, with Engineer Charles Rogers at the throttle, left the city for Chicago this morning with a train of fifty-seven heavily laden cars. The train's tonnage is 2,900 tons, just 5,000 tons more than is ordinarily assigned to that class of engine. The object is to see just how great a tonnage an engine of this class can pull up the several grades on the west end of the road without demoralizing the high speed schedule of fast freight trains on that division.

STAYED HERE THREE HOURS.

General Supt. J. A. Gordon, of the C., H. & D., and the transportation and maintenance of way officials who came here yesterday afternoon on an inspection trip, remained longer than they expected. The special train carrying them came in at 4:05 and did not leave until 7:15 o'clock. Superintendent Gordon and some members of his party left the train and made a short visit downtown.

WABASH PAYMASTER COMING.

Paymaster Francisco, of the Wabash, has sent out bulletins announcing his itinerary for November. He will be in Fort Wayne late in the afternoon of Thursday, November 19, paying out checks at the ticket office, freight house and shops Friday morning between the hours of 7 and 8. The distribution will be about equal to that of October.

Findlay Republican: "Don Nickerson, of the Pennsylvania railroad, formerly a Findlay newspaper man, came down Tuesday from Fort Wayne, Ind., to greet old friends here."

Among the passengers on the southbound G. R. & I. train today were Mr. and Mrs. John Wessel, who are going to Florida to spend the winter, in accordance with their custom.

Agent A. L. Gilbert, of the Wabash, has returned to the city after an absence of several days on business for himself. He visited Chicago and Attica during his absence from the city.

DON'T SPEND ANOTHER MISERABLE EVENING IN DISTRESS

You Should Get Some Diapepsin and Rid Yourself of Stomach Misery.

Miserable indeed is the man or woman whose digestive system is unstrung—who goes to the table and can not eat or what little is eaten seems to fill them and lays like a lump of lead in the stomach, refusing to digest.

If you, dear reader, suffer this way and will put on your wraps now and get from your Pharmacist a 50-cent case of Pape's Diapepsin and eat one 23-grain Triangule after your next meal you would appreciate, five minutes later, how long you suffered unnecessarily.

There will be no more indigestion—no misery in the stomach—no sour risings or Belching of Gas, no Heartburn, Flatulency or Eructations of undigested food and acid or feeling of Nausea, Fullness, Headache or other symptoms of a weakened Stomach.

Stomach trouble and Indigestion vanish like snow before the blazing sun.

When Diapepsin works your Stomach rests—gets itself in order. Diapepsin purifies and sweetens a sour stomach and freshens the intestines without the use of Laxatives, and what is more, it increases the gastric juices. This is what your stomach is begging for—more and better digestive juices. This is what makes you hungry and want to eat, and you can rest assured what you then eat will be taken care of properly and not left in the stomach to ferment and turn to gas and acid, and poison the breath with nauseous odors.

Get a 50-cent case from your druggist now—you ought to have Diapepsin about the house always. Should one of your family eat something which does not agree with him or her, or for a Sour Stomach or Excessive Gas, one triangule will always give immediate relief.

L. H. Allendorph, who resigned a position at the Perfection Biscuit company's office last week, has taken a similar position in the shipping department of the Bowser works. Other new employes at the Bowser works are Pearl Pratt, C. Gebeaur, Joseph Ohse and G. Coy.

The Wabash company has abandoned work at the gravel pits for the season and is housing the machinery employed in that work. Last night a big steam shovel and the gravel unloading machinery which had been at Attica came here to receive repairs and go into winter quarters.

Division Superintendent M. L. Reynolds and Superintendent of Telegraph William Kline, of the Lake Shore, were in the city yesterday. Superintendent Reynolds was en route to his home, after attending the conference of railway superintendents and the Indiana railway commission at Indianapolis.

W. H. DeCamp was the owner of the wheel found by Pennsylvania patrolmen Tuesday night and he called at Captain Stoll's office, proved his claim to the bike and took it home. Mr. DeCamp says the wheel was stolen from Wallace street, where he had left it a few moments before, last Monday.

Robert Watson, of Plymouth, has taken a position in the signal department of the Pennsylvania. Among the new men in the shops today are Joseph Brennan, a pipefitter; Frank Lehman, Joseph Kromm, Ed F. Bierbaum and Earl P. Wolf, blacksmiths' helpers, and twenty-six car repairmen and laborers at the east car shops.

Wabash engine 853, belonging to the Peru division, was turned out of the shops in this city this morning. This engine has been changed from a compound to a simple style of cylinders. There are but few compound engines in use by the Wabash now, the majority of those put into service two or three years ago having been changed to the simple pattern.

James Smith, a machinist in the employ of the Iron Mountain road, with headquarters at Springfield, Mo., spent a few hours in the city yesterday, visiting his mother and other relatives. He was en route to his home city with two new engines from the Baldwin Locomotive works at Philadelphia. Mr. Smith formerly resided in Fort Wayne and learned his trade in the Wabash shops.

The Peru Chronicle last evening had the following to say about men well known in Fort Wayne: "Ed Sherbondy, Wabash engineer, is running on passenger trains Nos. 5 and 6, between Peru and Toledo, for a few days in the place of engineer A. F. King. Mike Walsh, Wabash conductor, running on the Peru-Fort Wayne local, has been off duty for the past few days. Conductor J. P. Smith has been working in his place. U. Bott, machinist in the Wabash shops at Fort Wayne, is recovering from the effects of an operation he underwent at the hospital here a few days ago. E. Benske, a Wabash car repairer at Fort Wayne, has arrived at the hospital to receive treatment for a siege of typhoid fever."

NEGRO DEATH RATE DOUBLE.

Twice as Many Colored Men Die in Army as White Men.

Washington, Nov. 12.—The surgeon-general of the army, Dr. R. M. O'Reilly, in his annual report to the secretary of war, in reviewing the health of the army, says the death rate last year was twice as high for colored as for white troops. Speaking of the entire service, he declares that the death and non-affective rates in the United States army are higher than in any other army. He refers to a slight increase of insanity among the soldiers. In the Philippines, the health of the troops was better than in the previous year. The surgeon-general reviews the efforts to increase sanitary conditions in the army and refers to many plans that have been put in operation for this purpose. He insists that the great need of the medical department in the future is a larger force of commissioned medical officers.

The General Demand

of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.

HORSETHIEF GANG HERE?

Bluffton Folk Harbor Suspicion Against Fort Wayne.

(Bluffton Banner.)

It is believed by local officials that an organized gang of horse thieves are operating in the vicinity of Fort Wayne. These men work from this section of the country and it is believed that they have a string of workers and accomplices that reaches into Ohio.

A few weeks ago when O. W. Baumgardner lost his horse and went to Fort Wayne he had a hard time locating the animal or getting any clue which would lead up to the finding of the horse. Yesterday morning John Buckingham, of Huntington county, traced a thief to this county, on the Fort Wayne road north of this city. He came to this city, but was unable to find the animal. He then went to Fort Wayne, but could find no trace of the animal there.

The ease with which so many of the horses are spirited away has almost convinced the officials that the horse thieves have some help or they would not be able to cover up their tracks so well.

S. J. NORTH IS IDENTIFIED.

"Mysterious Candidate," Who Received 1,200 Votes, Lives in Milford.

Indianapolis, Ind., Nov. 12.—Samuel J. North, the "mysterious stranger" who bobbed up in the office of the secretary of state the other day with more than 1,200 votes for judge of the supreme court, has been identified. North lives in Milford, Kosciusko county, and was a prohibitionist candidate for prosecuting attorney. He was formerly a judge of the circuit court and the prohibitionists attempted to get him on the state ticket for the supreme judgeship. The county prohibitionists, however, refused to let him get away from their ticket. In the meantime some sample ballots had been printed bearing his name as a candidate for supreme judge, and in some way some of these ballots were cast.

POSTAL DEFICIT IS THE GREATEST IN HISTORY

Increased Pay for Men in Services Helps Along Vast Shortage.

Washington, D. C., Nov. 12.—Postmaster General Meyer announced today that the postal deficit for the fiscal year ended June 30, 1908, amounted to $16,910,279. The receipts were $191,478,633, (being $7,893,657 greater than the previous year) and the expenditures $208,351,886.

The deficit is the largest in the history of the postoffice department. An analysis of the figures shows that $9,891,321 represents the advance in the rato of compensation authorized by congress for employes of the railway mail service, rural delivery service, city delivery service and assistant postmasters and clerks in postoffices. The normal increase in the revenue for several years was about nine per cent. and in 1908, 4.29 per cent. The falling off in the rate of the growth being due to the financial depression. The postmaster general said that in his annual report he would call the attention of congress to the fact that he "is firmly convinced that the establishment of a special local parcels post confined to rural routes would tend to wipe out the postal deficit and would finally make the rural delivery self-sustaining, besides being of convenience to the farmers and a boon to the retail country merchants." There are now in operation more than 39,000 rural routes, he said, serving a population of about 18,000,000 people and should an average of fifty-five pounds of merchandise be carried by the rural carrier on each trip throughout the year, it is estimated that $15,000,000 would be realized. The rate would be five cents for the first pound and two cents for each additional pound up to eleven pounds, the maximum weight of a package. With the exception of a small percentage paid to postmasters of the fourth class for increased cancellations, he said, all revenue from this parcel post would be clear gain, as there would be no railroad transportation whatever, the service being confined to packages, mailed by bonafide merchants and patrons of the rural routes.

"I feel," continued Mr. Meyer, "that from an administrative and business view point, it is most desirable that such legislation be enacted."

THE MARKETS

GRAIN AND PROVISIONS.

Chicago Market.

Chicago, Ill., Nov. 12.—Profit taking sales by smaller holders brought out by moderate declines at Liverpool caused an easy tone in the wheat market today, prices at the start being a shade to ⅝@¾c lower compared with the previous close. Commission houses were fairly active bidders early in the day and prices held steady at the decline. December opened at $1.03¾ to $1.03⅝ and for a time held within that range. Minneapolis, Duluth and Chicago reported receipts of 561 cars.

The market experienced a sharp rally during the last half hour of the day on good demand for Manitoba wheat for export. December advanced to $1.04. Late in the day prices again reacted on profit taking and the close was easy with December off ⅛@⅜c at $1.02⅜.

Larger receipts than had been estimated caused considerable selling of corn at the start which resulted in moderate declines, opening quotations being a shade to ⅛c below yesterday's close. A firmer tone developed during the early part of the session on covering by shorts, December advancing to 62½c after opening at 62⅛c to 62¼c. Receipts were 109 cars.

The corn market followed wheat in its upward course only to decline again late in the session. The high point for December was 62⅝c. The market closed easy with December ⅛c lower at 62⅛c.

STOCKS AND BONDS.

The Day on Wall Street.

New York, Nov. 12.—The stock market still showed irregular tendencies at the opening today. Realizing continued in the high-priced railroad stocks and industrials, but a few of the lower-priced railroads were pushed upwards. Reading and Canadian Pacific showed opening losses of 1½ points, Southern Pacific and Northern Pacific 1 and Union Pacific, St. Paul, Erie, Amalgamated Copper, American Smelting and Anaconda large fractions. Minneapolis, St. Paul & Sault Ste Marie and Tennessee Copper rose 1 point and Missouri Pacific and Wabash preferred ⅝ point.

Brisk bidding up of some of the low-priced stocks, especially the Gould group, afforded support to the market and there was a rally. The pressure of realizing sales, however, in the active stocks was too severe to maintain prices and there was a relapse to the opening low figures or below. St. Paul, Great Northern Ore Certificates and Westinghouse Electric yielded 1 and American Smelting 1¼. Advances had occurred in such cases as 2½ in International Harvester, 2¼ in Minneapolis, St. Paul & Sault Ste Marie, 2⅛ in Tennessee Copper, 2 in Minneapolis & St. Louis, 1⅝ in Missouri Pacific, 1⅝ in Texas & Pacific and 1¼ in Kansas & Texas preferred and Pittsburg Coal preferred. Northern Pacific showed later strength, rallying from 150⅛ to 151⅝, but the rest of the list showed little sympathy with the rise.

Northern Pacific's further rise to 2½ over last night, the strength of the New York tractions and an advance of nearly a point in Southern Pacific gave a better tone to the market. There were general recoveries of the earlier declines and a number of minor stocks rose a point over last night. Peoples Gas advanced 2½. Bonds were firm.

Enormous buying of United States Steel lifted it 1⅜ points to 56, the highest figure it ever reached. Its advance caused some response in the whole market, but the general list of active stocks seemed unable to get much above yesterday's closing. Northwestern gained 2¼, North American 3, American Can preferred 1⅝, Cleveland, Cincinnati, Chicago & St. Louis and General Electric 1½, Kansas City Southern preferred and Consolidated Gas 1⅝ and Illinois Central 1¼. Buffalo, Rochester & Pittsburg sold at 95 compared with 80, the previous sale in May last.

The trend of prices became downward despite an extension of the rise in United States Steel to 56¾. Recessions reached a point in Northern Pacific and Southern Pacific, but the average decline was moderate. St. Louis & San Francisco certificates for Chicago & Eastern Illinois stock sold at 149 against 125 in June last. Chicago & Alton, and Sloss-Sheffield Steel moved up 2½ points, Bethlehem Steel 3, the preferred and International Paper preferred 1¼, and Southern Railway stocks, Republic Steel and Louisville & Nashville 1 point.

The market closed irregular and only moderately active. There was some additional spotty advances, especially in southern and trunk line railroad stocks, but the general list was inclined to sag. A rise of 1¾ to 114 in United States Steel preferred made a record price for it. Atlantic Coast Line and American Woolen gained 2½, Louisville & Nashville, Pennsylvania 1¾, New York Central and Southern Railway preferred 1⅝, and the Rock Island stocks 1¼.

PROPRIETORS of the smaller stores will profit the most by the use of Tungsten Lamps for electrical illumination, because many of them, where electric light has never been used before, will be surprised at its low cost.

For a small sum any store can have this brilliant light installed. It is very inexpensive. Unrivaled for show window illumination.

Our illuminating engineer's services free for the asking. Call Home Phone 2696.
